

Solar Cogeneration	
Date and timing:	16:00 – 18:00 CEST, Tuesday 5 October 2021
Organizer:	GITSE-University of Zaragoza-i3a
Registration:	Open to all conference attendees.

Program	
16:00-16:05	Welcome statement and Workshop overview
16:05-16:25	Available solar cogeneration technologies and possibilities Viktor Unterberger – BEST Bioenergy and Sustainable Technologies – Operating Agent IEA-SHC Task 55 Follow up Efficient solar district heating systems
16:25-16:45	Solar desalination Diego Alarcón-Padilla – PSA Solar Platform of Almería
16:45-17:05	Solar cogeneration in China – Real cases, outlook and perspectives Qingtao Jiao – Sunrain, China
17:05-17:25	Solar PVT – Technological potential - real cases and applications Alejandro del Amo – Abora Solar, Spain
17:25-17:45	Technological development of solar thermal cogeneration and success projects Joakim Byström– Absolicon, Sweden
17:45-18:00	Feedback, questions from audience Wrap-up and close of the workshop
